Nita Patel, MD

Advance Dermatology &
Laser Medical Center, Inc.

DISEASES OF THE SKIN, HAIR, AND NAILS

Dr. Patel treats disorders of the skin, hair, and nails. She is a specialist in the treatment and surgical removal of skin cancers. She treats patients of all ages- from infants to the elderly. Some of the common skin conditions that can be treated include:

- Acne
- Rashes
- Hair Loss
- Eczema
- Sun Damage
- Fungal Infections
- Herpes
- Aging
- Skin Cancers
- Moles
- Warts
- Allergic Reactions

LASER TREATMENTS

Dr. Patel is a leading expert on the use of the new non-ablative lasers, a breakthrough technology that is used to stimulate collagen growth beneath the surface of the skin. This versatile technology is painless and can be used to treat a variety of conditions with no down time. Please consult with the doctor for a personal evaluation.

Advance Dermatology & Laser Medical Center uses the most advanced lasers to offer a variety of treatment options. Lasers can be used to treat:

- Acne
- Age Spots
- Wrinkles
- Hair Removal
- Leg Veins
- Spider Veins
- Sun Spots
- Acne Scarring
- Birth Marks
- Collagen Rejuvenation
- Keloids
- Scars
- Stretch Marks
- Tattoo Removal

COSMETIC TREATMENTS

In addition to comprehensive treatment of medical disorders of the skin, hair, and nails, Dr. Patel also offers the latest in cosmetic dermatologic treatments, including:

CHEMICAL PEELS

Chemical peels are used to improve the texture and complexion of the skin and give a more youthful and healthy appearance. Various agents, including glycolic and salicylic acid, are used to exfoliate and improve sun damage and age spots on the face, neck, chest, arms, and legs. Acne and certain pigmentation problems can also be improved with a series of chemical peels. Healing time is minimal and most patients return to work after the procedure.

SKIN CARE

Dr. Patel and her staff can recommend a personalized skin care regimen that can treat and prevent aging skin. We offer a comprehensive selection of skin care products that are available for purchase by mail or in our office.

FILLERS AND INJECTIONS

Restylane,[™] Perlane,[™] Juvederm[™] and Sculptra injections are used to add volume to the face. Various techniques using fillers are used to soften furrows or lines on the face. The corners of the mouth can also be lifted with fillers and lips can be enhanced for a more youthful appearance. Botox[™] and Dysport[™] are used to weaken and relax dynamic muscle motion lines in the frown, forehead and Crow's feet areas.

Nita Patel, M.D. graduated from the UCLA School of Medicine and completed her dermatology residency at the UCLA and VA West Los Angeles Medical Centers. Dr. Patel is a diplomate of the American

Board of Dermatology and has special expertise in lasers, skin cancer surgery and cosmetic procedures. She serves as faculty and has taught techniques to physicians at laser

courses. Dr. Patel is a Fellow of the American Academy of Dermatology, the American Society for Dermatologic Surgery, and the American Society for Laser Medicine and Surgery. She is currently an Assistant Clinical Professor at the David Geffen School of Medicine at UCLA. Nita Patel, M.D. has authored and lectured on various topics in the field of dermatology.
